

AVIDHIFI

REFERENCE MONO AMPLIFIER™

"The power to reawaken
your senses"

Our enormous mono power amplifiers are the result of four years of painstaking development. Every aspect of their design has been scrutinised in our unwavering drive to create a masterpiece without compromise.

Our fully balanced circuitry keeps noise levels exceptionally low and distortion is practically non-existent, helping to deliver an unrivalled sense of sheer realism that will take you to new heights. A gigantic 2kVA transformer and colossal 600,000uF capacitor reservoir gives you almost limitless headroom with in-house custom made heatsinks specially designed to make sure that all 430W into 8 Ohms will run cool, even under exceptional load.

Powerful, solid low frequencies are faithfully reproduced with punchy midrange and crisp, clean treble delivered in perfect harmony. Voices have a tonality that simply feel real when they reach your ears riding on a wave of perfectly weighted power. The reference mono amplifiers will fling the door wide open to pure listening pleasure, filling your listening space with an experience you will quickly become addicted to.

SPECIFICATIONS (Per Channel)	
POWER	
Output	430W @ 8 Ohms
Harmonic distortion	<0.003% (80% Power 8 Ohms 1kHz)
Power supply	2kVA Mains Transformer
Capacitor reserve	600,000uF
Voltage input	115V or 230V (region dependant)
Power consumption	800W MAX
Channel separation	Infinite
Balanced circuit	YES
INPUTS	
Balanced inputs	1 x XLR / 1 x RCA
Mains input socket	IEC C20 TYPE
Mains input cable	IEC C19 TYPE
OUTPUTS	
Outputs	2 sets AVIDHIFI Gold plated custom binding posts (Pairs)
Impedance range	4-16 Ohms
DIMENSIONS AND WEIGHTS	
Dimensions (WxDxH)	500 x 650 x 300mm (including rear handles)
Net weight	68Kg (150lb)
Packaging	750 x 570 x 400mm (WxDxH)
Shipping weight	81Kg (179lb)
