REFERENCE THREE™

"Delivering music that truly spellbinding"

For many, the Reference Three has proved to be the sweet spot in our range, offering fabulous clarity, realism and a natural beauty.

The integrated stand reduces unwanted room interaction keeping the Bass drivers elevated from the floor resulting in less low frequency distortion.

Outstanding musical clarity is achieved with a natural sounding tweeter. The soft silk with ACUFLEX™ diaphragm and a titanium bobbin that ensures a tonally balanced and accurate sound with exceptionally fast transients. Bass is optimised by reflex loading from below the cabinet to reduce room positioning issues and our trademark vibration damping techniques leaving you with music that is truly spellbinding.

SPECIFICATION

Frequency Response	35Hz - 22kHz +/-3dB
Sensitivity	88dB 1W@1m
Recommended Power	40W - 400W (without clipping)
Impedance	6Ω
Crossover Topology	2.5-way, 2nd Order
Cabinet Construction	Aluminium Plate. All internal volumes sealed with O-Ring gaskets
Dimensions	590 x 230 x 525 (mm) HxWxD (cabinet) 1140 x 460 x 605 (mm) HxWxD (overall)
Finishes	Black / Chrome trim, Stainless spikes
Net weight	100kg (each)
Packaging	760 x 650 x 460 (mm) WxDxH (cabinet) 760 x 620 x 680 (mm) WxDxH (stand)
Shipping weight	150kg (each)

DRIVER CONFIGURATION

HF	1 x 28mm Acuflex™ Coated Silk Dome
MF/LF	2 x 160mm (6") Titanium Advanced Woofer
